

Shell Yeah!

Digital Marketing Campaign for Hampton Farms

The Project

Although Hampton Farms is the leading roaster of in-shell peanuts in the United States boasting 70 percent of the market share, its brand awareness lagged behind its market position.

To increase national brand awareness, we launched a digital campaign that paired summer festivities with Hampton Farm's flavored in-shell peanuts around the rallying cry, "Shell Yeah!"

Paid advertising (search, rich media display ads and product listing ads) and organic social media posts brought the brand campaign to life. Throughout the engagement, every aspect of the campaign was optimized to maximize Hampton Farms' ROI.
