

LifeFlow®

FLUID RESUSCITATION. WHEN MINUTES MATTER.

Announcing LifeFlow® Next Gen

LifeFlow® Next Gen incorporates two new features, Air Check™ and Force Reducer™, that make LifeFlow even faster and easier to use. Deliver 500ml of fluid in less than 2 minutes.*

Up to 4X faster

A typical trained user is able to infuse fluids with LifeFlow at almost four times the rate of infusion with a pressure bag

Resource optimization

LifeFlow's one-handed operation frees providers to address other patient care issues simultaneously

Adaptable

LifeFlow can be used with large-bore access and high resistance access including catheters as small as 24 gauge
