

LifeFlow®

FLUID RESUSCITATION. WHEN MINUTES MATTER.

LifeFlow is a simple hand-held tool for rapid, controlled delivery of a fluid bolus.

APPLICABLE CONDITIONS

Shock
Sepsis
Anaphylaxis
Cardiac Arrest
Hemorrhage
Respiratory Failure
Burns
Drug Overdose
CNS Injury

BENEFITS OF FASTER, CONTROLLED FLUID DELIVERY

Reverse shock, which is shown to improve survival by 40%¹

Reduce additional interventions² and patient length of stay³

Improve sepsis bundle compliance (ie PALS, SEP-1)⁴

Supports accelerated diagnosis and patient disposition

ADVANTAGES OF LifeFlow®

Up to 10x faster fluid resuscitation^{5,6}

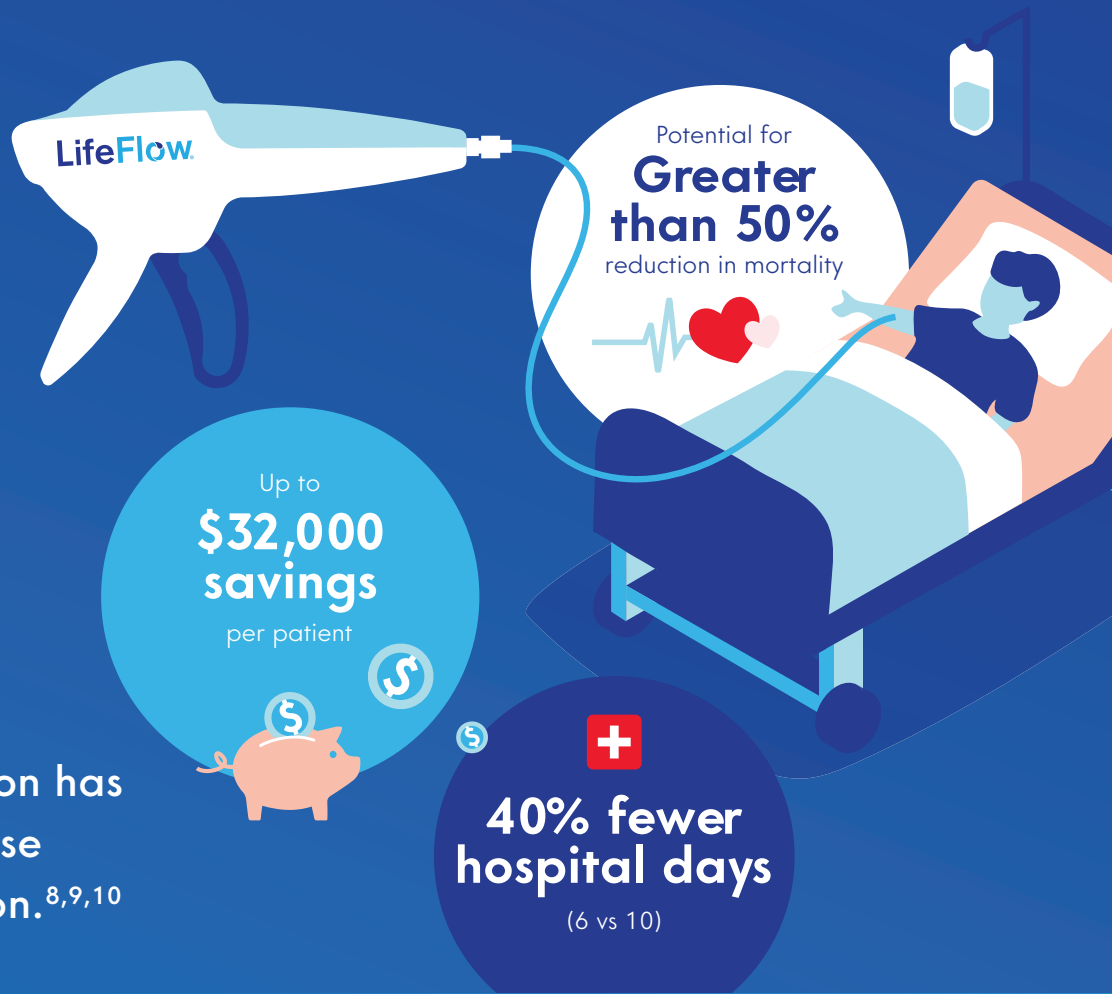

Set up and deliver a **500 ml bolus** in **<4 min**⁶

Titrate delivery to needs of patient⁴

Closed system designed to minimize contamination

Potential Economic Impact⁷ in Pediatric Shock

Early fluid resuscitation has been proven to reverse shock and hypotension.^{8,9,10}
