# WELCOME

---

A century ago, we made our first braided rug, a single style in a handful of colors. We've grown and the world has changed a lot since then, yet generation after generation finds their way to Capel. We've realized that people will always be in search of something comfortable and real. And they will always find it here.

# A GUIDE TO OUR PREMIUM PERFORMANCE FIBERS

FROM OUR SPINNING MILL TO YOUR HOME.

WOOL

**Sturdy pile, repels water and stains, good heat insulation.**

Wool braids are a prime choice for high-traffic areas, such as living rooms and hallways, or spill-prone spaces, such as dining rooms.

COTTON CHENILLE

**Strong and stable, natural product, soft fiber.**

Popular in bedrooms and sitting areas. A chenille braid can provide a cozy spot in a nursery for tummy time or helping a baby learn to crawl.

NYLON

**Easy to clean, very durable, generally fade- and stain-resistant**

Nylon braids are created to mimic the look of wool and high-quality fiber rugs at a lower price point. A great choice if you like to frequently update your style.

POLYPROPYLENE

**The most stain- and fade-resistant material, extremely durable.**

Polypropylene is the material we use to make our indoor-outdoor braids. Polypropylene is also a smart choice under a dining table because it is so easy to clean.

BLEND

**Secret recipes from our spinning mill, Capelsie.**

We spin our own yarns in our Capelsie mill and that gives us the ability to create our own custom yarn blends. Sometimes the secret ingredients include wool for durability and toughness or nylon for resilience and suppleness.

**OUTSTANDING
