

GRIFOLS

PRODUCING PLASMA MEDICINES

For more than 100 years Grifols has been working to improve the **health and well-being of people around the world.**

PLASMA COLLECTION

Grifols has 13 plasma donation centers that span eight counties in North Carolina. Each donation center is estimated to add \$5 million to the local economy.

MANUFACTURING

Grifols' largest manufacturing facility is located in Clayton, NC. Here, plasma collected from donors is converted into medicines that treat rare and chronic diseases.

CORPORATE SUPPORT

Our corporate employees in North Carolina are an essential part of making our company operate effectively around the world.
