Introduction

The background features a dark blue gradient with several overlapping geometric shapes. These include a large circle at the bottom center, a smaller circle at the top right, and several rectangular bars of varying sizes and orientations scattered across the right side of the frame.

We believe equity is best built together.

That's why we pour our hearts – and our smarts – into creating positive results for both our customers and our communities. At Equity, we think community-first and do whatever it takes in the pursuit of prosperity for all.

Pour: proactive
Hearts: empathy
Prosperity: improvement of community and/or self

Introduction

Tenets

Our brand tenets are made up of beliefs and behaviors.

Beliefs help attract like-minded customers (or prospective customers) through a shared understanding of what will help them improve their social or physical well-being. Behaviors are the ways you help elicit these core beliefs.

Brand Beliefs	Brand Behaviors
Equity	We are proactive
Integrity	We are engaged
Community	We are transparent
Empathy	We are impassioned to help
Inclusivity	We connect where you are
Accountability	We pivot quickly and nimbly
Respect	We work faster and smarter
Entrepreneurship	We think in unconventional ways
Innovation	We embrace diverse perspectives
Growth	We strive for prosperity and success for all
Authenticity	We respond and advocate locally

Introduction

Brand Tone

We aim to strike an informed, friendly and accessible tone with all of our content.

Introduction

Messaging Strategy

Messaging

Keeping the brand's friendly, jargon-free, and sometimes unconventional spirit, we will create an optimistic, purposeful, and unified brand voice with the flexibility to bend, shift, and pivot in reference to culture, communities, and campaigns.

The following examples show two tiers of messaging:

Tier One: Brand Level

Brand level messaging could appear in any large awareness media buy or universal language. We've centered on a few "core" brand tenets for discussion:

A: Proactive Banking

B: Improvement of
Community and Self

C: Authentic Empathy

Tier Two: Campaign Level

Campaign level messaging could live in certain markets or could be employed in specific product promotions.

Brand Level Messaging:
Proactive Banking

A bank for entrepreneurs, by entrepreneurs.

The bank for getting your sh*t together. At Equity Bank, we're totally dedicated to helping you tackle your toughest and most ambitious goals.

Brand Level Messaging:
**Improvement of
Community and/or Self**

Upgrade your money.

Your money isn't going anywhere. And it should be. At Equity Bank, we believe in building on what you've worked hard to earn.

Brand Level Messaging:
Authentic Empathy

Things can only go up from here.

Our goal? Doing what it takes to help you succeed in all aspects of your life—whether you're raising a family or running a start-up.

Campaign Level
Messaging:
Proactive Banking

Save a trip with a couple clicks.

Our smart digital tools offer you convenience and keep you connected from anywhere. Or of course, you can stop by any office, linger with your kids or dogs, and tap into the Equity Bank experts who are on-hand.

Works when you do.

Our top-ranked treasury management tools are designed to keep your business safe and protected all day, every day.

Campaign Level
Messaging:
**Improvement of
Community and/or Self**

(local example)

Our capital should stay in our capital.

As the preferred community bank in Topeka, we believe our best service to the community is to ensure we put money back into the hands of the businesses and families we serve.

Savings that support.

Learn how Equity Bank Rewards help you save money and support the local businesses you love.

Campaign Level
Messaging:
Authentic Empathy

(local example - small markets)

Small town life doesn't mean small town dreams.

You can start a business anywhere today. Talk to your local Equity banker and let's build it together.

Babies take up space.

Build more for your new arrival.

The background is a dark blue gradient with various geometric shapes in shades of blue and grey. There are several horizontal bars of different lengths and thicknesses, some tilted at an angle. A large circle is positioned in the lower right quadrant. The overall aesthetic is modern and minimalist.

Visual Universe

The concept of equity is all about making sure people get what they need to be successful.

It's about meeting them right where they are in life; with a deep understanding of how to meet their needs. In a nutshell, that's what Equity Bank does for its customers.

Our visual strategy is rooted in creating a brand identity that captures the bank's spirit of self-improvement, responsiveness, and problem-solving that creates an influential center for building stronger communities.

Our identity system is made up of six core elements that work together across a full range of applications to bring our brand to life.

TRUST & WEALTH MANAGEMENT

NOTE: The following pages detailing logo usage are based on the new Equity Bank logo mark, with the exception of signage (see page 20).

Our Logo: Signage

The new Equity Bank logo is designed to co-exist with current bank legacy logos in signage.

- New signage will use the updated logo
- No change is necessary to existing signage

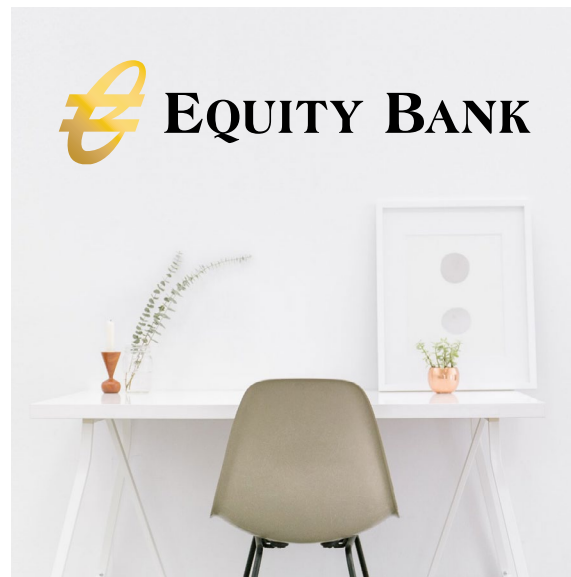

Examples of legacy logos:

Our Logo

The full color logo should be used in all full color print and web applications.

- The positive full color logo should be used on light and white backgrounds.
- The reverse full color logo should be used on Carbon Gradient and dark backgrounds.
- Applications include collateral, signage, promotional, print, web.

NOTE: If the quality of the Equity Gold Gradient will be compromised by size, substrate, or production method, the two color logo should be used.

Two Color

The two color logo should be used in two/spot color printing and web applications.

- The positive two color logo (Gold and Black) should be used on white and light backgrounds.
- The reverse two color logo (Gold and Black) should be used on dark backgrounds.
- Applications include instances when the quality of reproduction of the Gold Gradient will be compromised, signage, and promotional items.

Positive

Negative

One Color

The one color logo should be used in one color and black and white printing only.

- Applications include print, signage, promotional items.

Gold

Black

White

Clear Space and Minimum Size

- The clear space of the Equity Bank logo is determined by the height of the letter E in our wordmark.
- The minimum size of the Equity Bank logo is 1" wide.

Clear Space

Minimum Size

Logo Usage

A few examples of “don’ts” which will protect the integrity of the Equity Bank logo.

X DON'T use the positive logo on a dark background or the reverse on a light background

X DON'T use the wordmark without the logomark

X DON'T add any type to the logo*

X DON'T use any colors or gradients other than the Brand Gradient, Gold, Black and White for any elements of the logo

X DON'T distort the logo or change the scale or layout of the logo elements

X DON'T outline the logo

X DON'T violate the clear space guidelines

X DON'T reproduce the logo smaller than minimum size

Color Palette

Core Brand Colors

- The **Core Brand Colors** are the colors that are used in the Equity Bank Logo.
- **Gold** and **Black** may be used in percentages in brand shapes, patterns, backgrounds, and other graphics.
- **Carbon** is used only in the **Black Carbon Brand Gradient**.
- **Light Gold** is used only in the **Solid Gold** and **Modern Gold Gradients**.

Only used in brand gradient:

Neutrals

The three **Neutral Brand Colors** are used to complement and support the Core Brand Colors.

Accents

- **Accent Colors** are used to complement the Core Brand Colors. They should never overpower the Core Brand Colors. **Core Brand Colors should always be dominant.**
- Each Accent Color is also connected to an Equity Bank Service Area:
 - Violet: Personal
 - Indigo: Treasury
 - Aqua: Mortgage
 - Sky: Business
 - Butter: Wealth
- In materials entirely focused on a particular service area, Gold and Black should be dominant with small pops of the relevant Accent Color.

Brand Color Hierarchy

Core Brand Colors and Neutrals should make up at least 75% of color used in any collateral or marketing materials. Accent Color(s) may only represent 25% of total color used.

Brand Gradients

Brand Gradients connect to our logomark and bring depth to backgrounds and graphics.

- **Solid Gold Gradient** is used exclusively in our logomark and icons
- **Black Carbon Gradient** is used exclusively as a background
- **Modern Gradient** is used exclusively as a background

*Dark Gold is used only in the Solid Gold Gradient but is not part of the Core, Neutral, or Accent Palettes

Brand Shapes

Our foundational brand behaviors help inform our brand shapes.

Authentic Empathy

Circles represent inclusiveness and the empathy we wrap around everything we do at Equity.

Improvement of Community and Self

Rising rectangles represent the supportive trajectory of a financial partner by your side and the improvement we seek in our selves, our customers, and our communities.

Proactive Banking

We champion action, products, and tools that help our customers and our communities achieve goals faster.

Overview

- **Brand Shapes** - solid or outlined, opaque or transparent - are used to express brand activations.
- Brand Shapes can be applied in the following ways (see pages 34-37):
 - A: Loose Shapes**
 - B: Single Shape as Container**
 - C: Transparent Shape Overlay**

In Use

- All **Brand Shapes** can be used together in Equity Bank branding but Brand Shapes are also connected to Equity Bank Service Areas:

Brand Patterns

Overview

- **Brand Patterns** – repeating patterns built from brand shapes – can be applied in the following ways:
 - A: Patterns as graphics or backgrounds**
 - B: Pattern as Container**
- Brand Patterns are also connected to Equity Bank Service Areas (see pages 40-44)
- Pattern guidelines*:
 - **Scale** of pattern is flexible
 - **Spacing** of pattern is flexible
 - **Scale of shapes within pattern** must be identical
 - Patterns can be opaque or transparent and filled with Core Brand Colors, Neutrals, or Accent Colors (where relevant)
 - Color Palette hierarchy should always be followed (see page 29)
 - Patterns can be placed on solid colors or images
 - Tightly spaced patterns may be used as containers for images

Photography

Overview

Dos:

- **Keep it real:** We want to form a relatable bond with our communities. To do this, we need to ensure that the people featured in photographs are diverse in both race and gender.
- **Capture moments:** In stock or custom photo shoots, go for real, authentic moments and a tone that feels optimistic and upbeat.

Don'ts:

- **Don't** use images that feel staged.
- **Don't** use images with stylized features including high-contrast, colored tints, or textures.
- **Don't** crop an image awkwardly when using it in a container.

*See Application Examples beginning on page 54 for more guidance on usage

Light Lifestyle Images

- **Light Lifestyle Images** are light, airy, and natural.

*See Application Examples beginning on page 54 for more guidance on usage

Deep Lifestyle Images

- **Deep Lifestyle Images** are deep, rich, and saturated.

*See Application Examples beginning on page 54 for more guidance on usage
