

THE CLINICAL RESEARCH ALLIANCE

UNC School of Medicine's clinical coordinating center support team for multi-site clinical trials initiated by investigators at UNC and external institutions

Collaborate with Us

The Clinical Research Alliance (CRA) is an academic clinical research organization offering a rare blend of experts within UNC and established partnerships across North Carolina and the United States to fulfill the requirements needed to coordinate phase II clinical trials.

THE CRA DIFFERENCE

A STREAMLINED APPROACH

Simplify the complexities of multi-site clinical trials with a single partner to manage the entire process and oversee all collaborators, vendors, subs, and resources.

ESTABLISHED ALLIANCES & AGREEMENTS

Leverage our breadth of services, partners, agreements, and personnel to move your clinical trial forward.

SPECIALIZED EXPERTISE

Work with experts who have intimate knowledge of navigating the UNC network, and liaisons and navigators who have a track record of success with complex trials.

HIGH-QUALITY RESULTS

Use our network of investigators to identify appropriate clinical sites with proven performance yielding quality data.

OUR VISION

To pioneer breakthroughs in health care with innovative support of clinical research.

OUR MISSION

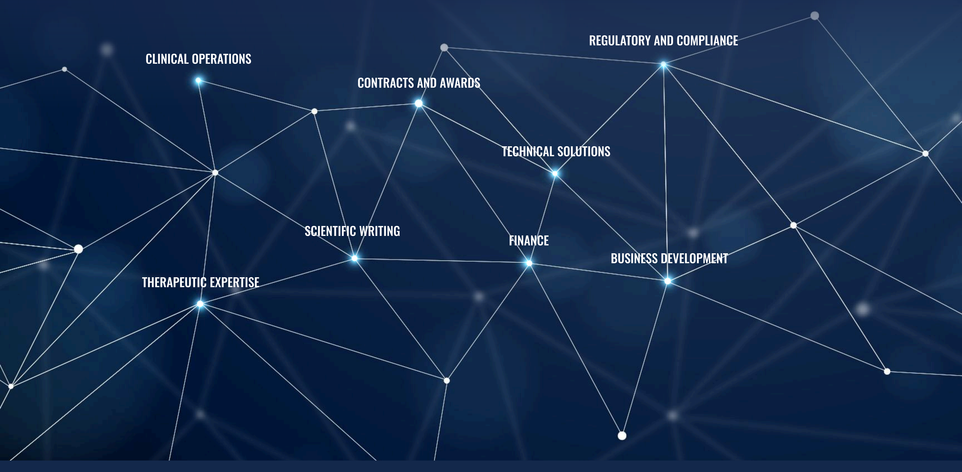

Advancing knowledge and sharing clinical research discoveries to improve the health and wellbeing of people in North Carolina and beyond.

CAPABILITIES

CRA brings together principal investigators, program managers, data managers, regulatory personnel, business development, and contracting experts with decades of experience in clinical research to coordinate, manage, and support clinical research programs.
